

‘BHARATA’ ENERGY DEFENCE PROGRAM

PROPOSAL

BY

CHOLA MANDALA MAHAA SAMSTHAANAM

CHIEF CONVENOR: PRINCE A AMITHAAB

Executive Summary

Chola Mandala Mahaa Samsthaanam is a congregation of royal families, spiritual gurus and social activists who envisage reestablishing Bharata (currently known as India) in its full glory. We shall do this by first protecting our motherland, reenergizing our spiritual epicenters such as Hebbya, Hampi (Kishkinda), Ayodhya etc. and finally balance human, environmental and spiritual energies of this planet.

To achieve this grand vision, we employ both socio-political and spirituo-mystic processes such as Rajasooya Maha Yagnas , Vishwa Shanthi Parama Yagnas, mass visualization and education via main stream media, spiritual meditative practices that activate the hidden astral and cosmic abilities of human beings.

Since 2005, following a divine ordainment, we have successfully conducted 4500 Maha yagnas, around 54 Shiv lingh installations, multiple idol consecrations, launching of a mass media instrument, more than a million tree plantations & many socio cultural rejuvenations - at national & international locations.

Our yagnas and processes have very deep mystic connection with the political, economic, social and environmental activities across the planet. We have enabled

- torrential rain falls to draught stricken areas,
- caused economic cataclysms to close the rich-poor gap across the planet,
- economic crisis to prevent military and terror attacks to Bharat from hostile countries & organizations
- political instability in unfriendly countries through government shut downs (eg: recently in the USA)
- inviting & interacting with benevolent extra galactic, inter stellar beings to eradicate the insolvable problems of the planet (global warming, drying of river beds, poisonous earth, over population)

These abilities have been witnessed & cross verified by credible third parties including government ministers, military personnel, television media, scientific communities & spiritual organizations. This establishes the scientific nature of our mystic instruments.

In light of the recent terrorist and military attacks on the Indian army, the Mahaa Samsthaanam has pledged to offer our mystic and psychic abilities in a professional manner to aid the goings-on and protect the interests of the military and defense establishments of the Indian government. Through our unique abilities, we shall help the agencies to achieve their objectives of terror cell eradication, economic suppression, environmental destabilization & eventually total surrender of the enemy nations to Bharata. All these can be achieved with a minuscule share (~0.000001%) of national defense budget. This dossier explains in detail about our journey so far and also serves as a blue print for our upcoming activities.

MAHAA SAMSTHAANAM ACTIVITIES – PAST TO PRESENT TIME LINE

2005:

‘Akhila Vishw Bharathiya Seva Samaj’, was registered at Mysuru, Karnataka by Prince A. Amithaab – our chief convenor.

Rajasuya Maha Yagna

The Chola prince began conducting **‘Rajasuya Maha Yagna’** in 2005. Fire rituals are called by different names in India such as Hawan, Yaga, Yagna and so on. Many fire rituals are evident in our puranas. They are still being conducted in many temples. This particular fire ritual is special because according to puranas, it was conducted only twice successfully, once by Sri Ramachandra Prabhu and other by Matha Chamundeshwari. Rajasuya Maha Yaga is conducted before involving in a war with an enemy kingdom and has to continue until the enemy surrenders. Mr. Amithaab began this yagna under the guidance of divine energy to protect Mother Nature and her inhabitants from negative energies and entities trying to destroy our planet by starting a nuclear war. Rajasuya Maha Yagna has been conducted every new moon and full moon till last month. The fire ritual lasts for about 12 hours on new moon and is conducted for five days ending on full moons.

2006:

Meditation classes were given to the inmates of Mysuru Jail by Mr. A. Amithaab. It was an initiative under **‘Akhil Vishw Bharathiya Seva Samaj’** to purify the inner conscience and rid them off the stress due to social stigma. He also began meditation classes for the public of Mysuru city.

2007:

The Chola prince continues the spiritual fire ritual 'Rajasuya Maha Yagna' to prevent the outbreak of nuclear war and for the well being of everyone on earth.

By the guidance of the divine, the young prince at the age of 23, took up a social welfare project '**Beggar free city – Mysuru**' to stop beggary in the heritage city of Mysuru. The beggars were provided with shelter in the rehabilitation centers. The rehabs were restored to good hygienic conditions before sheltering the beggars. They were later provided with employment to sustain their livelihood. This project served to maintain a hygienic environment in the city, attracted foreign tourists and more importantly put an end to Child trafficking, Begging Mafia, Prostitution rackets and Poverty driven crimes. Mysuru Deputy Commissioner's office announced the success of the project on **08th of March, 2008.**

Beggar free city – Mysuru

2008:

On 19th of June 2008, bhoomi puja of **Matha Gandhareshwari temple** at Hebbya, Mysuru was performed by **Sri Vishwesha Thirtha swami** of **Sri Pejavara Adokshaja Matha** in Udupi, Karnataka.

Bhoomi puja of **Matha Gandhareshwari temple** at Hebbya, Mysuru was performed by **Sri Vishwesha Thirtha swami**

According to the divine cosmos, after the Kurukshetra war in Mahabharatha, Matha Gandhari devastated at the loss of the entire Kaurava race cursed Sri Krishna that his race would perish similar to hers and that Sri Krishna would die a painful death with no one to look after him. Accordingly, his Kingdom perished with Dwarka submerging in the ocean and Sri Krishna's death due to the wounds of a hunter's arrow. Sri Krishna's demise happened at Hebbya, Mysuru and his body was cremated at

Haripur, Gujrat. Once Sri Krishna left his body, he became a paramathma (divine soul) and people started worshipping him as God. They called the whole universe to be **‘Vasudaiva Kutumbakam’** – family of Sri Krishna Paramaatma. So the curse has manifested to the entire universe. As the curse takes its effect, countries around the world would start fighting against each other leading to a nuclear war and the world would come to an end. As per the divine, the only remedy to come out of the curse is to please Gandhari matha’s Kula devi ‘Matha Gandhareshwari’ by building Matha Gandhareshwari temple at Hebbya, Mysuru and that this temple had to be built by Mr. Amithaab.

So the Prince bought the land that the cosmos directed to be the death place of Krishna and the bhoomi puja was conducted in June 2008. The divine energy had warned Amithaab ji that he would face a lot of hurdles to complete the temple and accordingly the temple construction has encountered various issues and is currently stalled.

On 04th September 2008, a rally was conducted by Mr. Amithaab and his associates under ‘Akhila Vishw Bharathiya Seva Samaj’ to promote the idea of **installation of metal detectors and CCTV cameras in public places** to Mysuru city authorities. This project was initiated in the name **‘Secured Mysuru’** which focused on the safety of public and to check the anti social activities in the city. This project was realized with the installation of CCTV cameras and metal detectors in bus stands, train station, tourist places and cinema halls all over city. Later, the project stood as an inspiration as the same was carried out across the entire nation.

‘Secured Mysuru’ project - installation of metal detectors and CCTV cameras in public places

2009:

On 06th May 2009, Central government had released a huge amount of **Rs. 1850 crore** for the infrastructural development of Mysuru city in the name of **NURM** project. This fund was stagnant and not used for its purpose. Mr. A. Amithaab with the help of his trust Akhila Vishw Bharathiya Seva Samaj and media pressurized the authorities to release the amount for the city development. Finally the funds were released and the new KSRTC bus stand that stands majestic in the very heart of the city was built under this project.

NURM project - **Rs. 1850 crore** for the infrastructural development of Mysuru city

2010:

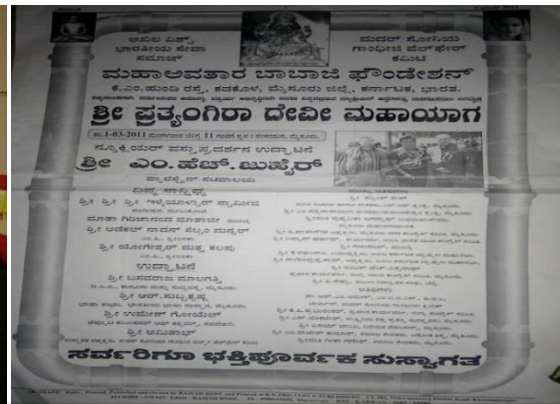

Mr. Amithaab visited **Sri Lanka** and met with **Mr. Rahul**, personal secretary of **Mr. Rajapakshe** (the then honorable President of Sri Lanka), **Mr. Vigneshwaran** (the then honorable Chief Justice of Sri Lanka) and **Members of Sri Lankan Parliament** to hold diplomatic talks with the government. The prince requested the Sri Lankan government not to provide military base to Pakistan and China and warned of probable consequences if the government decides otherwise.

Sri Lanka visit - Mr. Vigneshwaran (the then honorable Chief Justice of Sri Lanka) and Members of Sri Lankan Parliament

2011:

On 01st of March 2011, Palestinian Minister Mr. M. H. Zuhair arrived at Mysuru to attend Rajasuya Maha Yagna and also take part in a conference to educate public about the threats of Nuclear weapons, ill effects of radiation leaks from nuclear power plants and the bad state of laborers involved in mining of radioactive materials.

Palestinian Minister Mr. M. H. Zuhair attends Rajasuya Maha Yagna and educates public about the threats of Nuclear weapons in a conference

2012:

Rajasuya Maha Yagna was conducted at 8 places bordering India by Mr. Amithaab and his young team to protect our nation from the threats of neighboring hostile countries and terrorists. The 8 places were,

RAYA SUYA YAGA IN LAKSHADWEEP ISLAND (AGATHI)

RAJA SUYA YAGA IN DWARAKA (KRISHNA'S KULA DEVI HARSIDDHI MATHA MANDIR)

RAJA SUYA YAGA IN CHAMUNDIVANAM, MYSORE

RAJA SUYA YAGA IN HAGAVATHI TEMPLE IN KANNANUR

RAJA SUYA YAGA IN KANYAKUMARI

TO INCREASE FINANCIAL CRISIS & TO INCREASE DISASTERS TO ENEMY COUNTRIES - RAJASUYA
RANACHANDI YAGA IN MUMBAI ELEPHANTA CAVE

Rajasuya Maha Yagna was conducted at 8 places bordering India to protect our nation from the threats of neighboring hostile countries and terrorists

1. Bavali Matha mandir, Jammu;
2. Kamakya, Assam;
3. Adi Shakti temple, Kanchipuram;
4. Indira point, Andaman and Nicobar;
5. Kanyakumari, Tamil Nadu;
6. Agatti Islands, Lakshadweep;
7. Kannur, Kerala;
8. Har Siddhi Matha mandir (Dwaraka)

The spiritual program to protect our country ended with Rajasuya Maha Yagna at Chamundivanam, Mysuru.

Mr. A. Amithaab reconstructed and renovated the **Siddharameshwara** temple at Hebbya, Mysuru at his own expense. The temple was in a dilapidated state earlier. Mr. A. K. Sharma, Archeological department expressed his views that the temple was very old and had mythological significance. When the concerned authorities declined to involve, Amithaab ji took matters to his hands and completed the renovation work and **Jeernoddhara** ceremony was conducted on **20th December 2012**.

Mr. A. Amithaab reconstructed and renovated the **Siddharameshwara** temple at Hebbya, Mysuru

2013:

The Cholan prince visited the Indian borders at **Ladakh, Tawang** and **Kargil** and conducted Rajasuya Maha Yagna at army camps under the supervision and support of Indian army. The fire rituals were conducted for the well being of our soldiers at the borders and create an energy shield to protect the borders from enemy attacks. Mr. Amithaab also discussed about the problems faced by Indian army at such high altitudes and rough climatic conditions.

Rajasuya Maha Yagna at army camps in Ladakh, Tawang and Kargil for the well being of our soldiers at the borders and create an energy shield to protect the borders from enemy attacks.

2014:

Mr. Amithaab and his team were involved in Rajasuya Mahayagna for the entire year of 2014. A reservoir of Cosmo energy was formed by the continuous fire rituals which served to manifest positive energies around the globe. Many major mishaps that might have led to loss of many lives were prevented.

Mr. Amithaab and his team were involved in Rajasuya Mahayagna for the entire year of 2014 to manifest positive energies around the globe and prevent major mishaps around the world

2015:

Amithaab ji and his team visited **J and K** in the month of **April** and built a temple of **Adi Rakshana Jwala Narasimhini Prathyangire and Adi Rakshana Jwala Narasimha** at Dalair in Jammu. The temple was built on a site previously destroyed by a terror attack. He also met with J and K police officers and discussed the issues faced by the natives.

Amithaab ji and his team built a temple of Adi Rakshana Jwala Narasimhini Prathyangire and Adi Rakshana Jwala Narasimha in Jammu

After the Jammu and Kashmir visit, Mr. Amithaab left to Uzbekistan in the month of June. He visited Tashkent and Samarkand. He met with **Indian Ambassador in Uzbekistan Mr. D R Sharma** and requested permission to install **Adi Rakshana Bhu Vaaraahi Prathyangire** and **Adi Rakshana Bhu Varaaha** idols in Uzbekistan. The idols are programmed to reduce terrorism in the continent of Asia. Uzbekistan suits the program since Uzbekistan was the native of popular conqueror Timur (direct descendant of Genghis Khan) and Babar (descendant of Timur) was also a great conqueror who set his conquest to India. Up on the honorable ambassador Mr. D R Sharma's most precious advice, Amithaab ji visited **ISKCON** at Tashkent requesting a place to install the idols. But not much of help could be received and the prince returned to Mysuru. The idols meant to be installed in Uzbekistan are still placed safely without being installed.

Met with Indian Ambassador in Uzbekistan Mr. D R Sharma and requested permission to install Adi Rakshana Bhu Vaaraahi Prathyangire and Adi Rakshana Bhu Varaaha idols in Uzbekistan

2016:

In the year 2016, Mr. Amithaab visited **Thailand** for his energy programs and visited the places that were support him in his mission.

Visit to Thailand for energy

Later, by the guidance of the cosmos, he started a spiritual project to install **Shiv lingh** that are formed naturally in Narmada river bed due to the turbulent flow. The Shiv linghs were installed at different places in the states of **Karnataka, Tamil Nadu, Maharashtra, New Delhi and Uttar Pradesh**. Around 20 shiv linghs were installed in that year.

Shiv linghs were installed at different places in the states of Karnataka, Tamil Nadu, Maharashtra,

Visited **Elephanta caves** in Mumbai, Maharashtra and installed the Atma lingh of **Adi Rakshana Gayathri Devi Prathyangira** and **Adi Vishwakarma deva**.

Visited **Elephanta caves** in Mumbai

2017:

Mr. Amithaab and his team visited Cambodia during this year and installed **Adi Rakshana Aghora Pretheshwari Prathyangire** and **Adi Rakshana Aghora Pretheshwara** atma lingh at **UNESCO** site of **Angkor Wat** temple under special permission. This served as a major energy breakthrough in the mission and provided an inclination in our fight against the negative entities. A mysterious cloud formed over the site of Angkor Wat soon after the installation as if an energy portal opened and positive cosmos entered the site.

Mr. Amithaab and his team visited Cambodia and installed **Adi Rakshana Aghora Pretheshwari Prathyangire** and **Adi Rakshana Aghora Pretheshwara** atma lingh at **UNESCO** site of **Angkor Wat** temple under special permission.

Mr. Amithaab visited New Delhi and installed Atma lingh of **Adi Rakshana Subadra Prathyangire** and **Adi Rakshana Arjuna**. He also visited **Prime Minister's Office (PMO)** and submitted a letter seeking permission and support to install idols and Shiv linghs at sensitive and critical energy spots that are not easily accessible to common public; in order to prevent nuclear war.

Mr. Amithaab visited New Delhi and installed Atma lingh of **Adi Rakshana Subadra Prathyangire** and **Adi Rakshana Arjuna** and submitted a letter **PMO**

Apart from his visit to Angkor Wat and PMO, Amithaab ji and team continued with the regular fire rituals and installation of Shiv lingh at different places. Around 10 more shiv linghs were installed that year.

Different Yantras (formations) of Rajasuya Maha Yagna to channel different frequencies of Cosmos as per requirement of application

2018:

In April 2018, Mr. Amithaab and team visited **Varanasi, Uttar Pradesh** and installed the Shiv Lingh at the sacred pilgrimage. Around 14 more Shiv linghs were installed in the year 2018. The installations were carried out in the hilly regions of Western ghats.

Mr. Amithaab and team conducted a fire ritual at Varanasi in Uttar Pradesh. At right, you can see the young Chola prince comforting the native villagers

2019 (till date):

Mr. Amithaab and his team installed **Adi Rakshana Dhana Lakshmi Prathyangira** idol in Mysuru on 15th February 2019.

**Adi Rakshana Dhana Lakshmi
Prathyangira idol installation**

Amithaab ji and team has been planning to build an Inter faith temple at his site in Hebbya, Mysuru to bestow peace and harmony among all religions and bless everyone to live together peacefully irrespective of Religion, Race, Gender, Caste and Creed. The temple would house gods and goddesses of different religion and a prayer hall. The idols required for the Inter faith temple have already been carved out and are waiting to be installed at Hebbya. But the project has stopped due to lack of financial support and various local hurdles.

**Matha Adi
Shakthi**

**Matha Adi Rakshana
Dwarakanatheshwar**

**Matha Adi
Rakshana**

**Matha Adi Rakshana
Ekanatheshwari**

**Adi Rakshana Siddhartha
Gowthama Buddha**

**Adi Rakshana Nazareth Eshwa
God Jesus**

The young prince and his team are still working to prevent wars and other catastrophes. The financial funding has declined recently which has led to inadequate fire rituals and other energy programs. The 13 yr legacy of unstopped Rajasuya Maha Yagna and hard work is now difficult to continue with insufficient financial help. The havirdanas (offerings) during the yagna and other energy programs have declined. As a result, the higher beings or devathas and their army are becoming weak.

The manifestation of positive energy has lessened and the energy shields around our nation are weakening. This is evident from the recent chain of events,

1. Pulwama attack on 14th February 2019 resulting in the death of our beloved soldiers,
2. IED blast killing an Army officer at Rajouri on 15th February 2019,
3. A mid air clash between two Surya kirans in Air Show in Bengaluru on 19th February 2019 killing a pilot and injuring 2 pilots,
4. A snow avalanche in Himachal Pradesh on 20th February 2019 killing an Army jawan and 5 others missing,
5. Forest fire at Bandipur National forest, Karnataka since 21st February 2019 for 5 continuous days and still raging resulting in the loss of vast jungle and many inhabiting animals,
6. A courageous and brave act by our IAF pilots bombarding a ton of bomb payload on terrorist camps in PoK on 26th February 2019 which may create a war like situation with Pakistan; something that Mr. Amithaab has been struggling to prevent.
7. An IAF Mig 17 transport chopped crashed at Budgam region of Jammu and Kashmir and a Pakistani F-16 fighter jet was shot down by Indian Air Force for air space violation at Lam valley. The Universities at Pok region, Amritsar and Punjab shut down.
More continues to happen....

MAHAA SAMSTHAANAM ACTIVITIES – UPCOMING TIMELINE

- 1) Conduct a key RAJASUYA MAHAYAGNA (at the earliest) at Hebya which is deemed to be the death place of Lord Sri Krishna. This Yagna shall ideally have the Defense minister of the land & key military personnel trained in marshal arts.
- 2) Complete the consecration of Mata Gandhareshwari temple at Hebya, Mysore District, Karnataka
- 3) Establish a full-ledged inter faith temple at this spot
- 4) Conduct regular RAJASUYA MAHAYAGNA at this spot & invite benevolent GODS from across the galaxy to come & help us in the war against terror
- 5) Invite various Royal blood lines & conduct RAJASUYA MAHAYAGNAs at key ancient energy epicenters such as HAMPI, BELUR, HALEBID, CHITRADURGA FORT, PADDADAKAL & 22 such similar areas that have been identified within Karnataka. This will enable to fortify Bharata against any anti-human, anti-ecological & anti-social invasions.
- 6) Reestablish the above mentioned spiritual centers to neutralize negative effects in those Kshetras and establish the order of Satya & Dharma (Truth & Righteousness).
- 7) Renovation of temples that are in ruins but hold huge reservoir of spiritual energy and mythological significance. Examples include Ayodhya Rama Mandir, Tejo Mahalaya, Makkeshwara Temple
- 8) Establish peace and harmony among everyone irrespective of religion, race, caste, creed and gender by manifesting positive cosmos through various energy programs.

A BRIEF INTRODUCTION OF OUR CONVENOR

Mr. A. Amithaab (born: 12th June 1984) is the current Chola prince descendant of the glorious '**Chola Mandala Mahaa Samsthaanam**' of Anaimalai, Tamil Nadu. He is also the Proprietor of ABB TV.

Chola Prince Mr. A. Amithaab

After the dissolution of Chola Empire, the Chola royal family settled down at Anaimalai. They were given the title '**Kondai Katti Thondai Mandala Velaalan**' – which translates to 'Royal family with hair tied in a bun like Lord Shiva, ruling Chennai and surrounding regions'. This royal family has had very notable personalities in its lineage and has also closely associated with some of the well known names in history.

**AMITABH'S FATHER – V.A. ARUNACHALAM
&
MOTHER - DR.T. KRISHNAVENI**

Notable luminaries of this lineage include,

Sri. Minjur Bhaktavatsalam, former honorable Chief minister of Tamil Nadu;

Sir Ponnambala Thiaga Rajan, chief minister of Madras Presidency (1936) and last President of Justice Party;

Mr. Neelam Sanjiva Reddy, former honorable President of India was a friend of **Sri. V A Arunachalam**, father of Mr. A Amithaab at 'Rishi Valley' International School. **Mr. Jiddu Krishnamurti** was a guru and mentor for Mr. A. Amithaab's father. Sri. V A Arunachalam was also a disciple of **Sri Acharya Vinoba Bhave** and has also donated lands to the poor in support of '**Bhoodan Yagna Movement**', initiated by honorable Sri Acharya.

Smt. T Krishnaveni, Mr. A Amithaab's mother was a co founder of '**Auroville**'-township in Tamil Nadu and co founder and trustee of '**Fraternity**'.

Being born in the Chola royal family, Mr. A. Amithaab inherited the influential qualities of his parents and an inclination towards spirituality like his ancestors. He started perceiving spiritual cosmic energies and had super normal intuitive abilities. He had out of world experiences that were quite similar to the experiences of Mr. Jiddu Krishnamurti. It was as if a divine power was educating and driving the child. Many of his relatives and friends have confided to have had miraculous experiences while being around the young prince. His parents were also astonished by the mysticism. The child's aura was very strong and pure.

At the age of 16, he had a strong bond with the divinity. He was given a task by the forces that cannot be seen with the naked eyes. He was told that he was chosen for a higher purpose, a purpose to save humanity from the nuclear war that may break out any time. He was trained by the divine to see, perceive and use the cosmic energies to establish peace and harmony in the world. Though his personal life was a roller coaster ride, he never failed in any projects taken up for the betterment of humanity.

Mr. Amithaab grew up to be a fine young leader and a magnet that attracts the youth. He was always surrounded by people. He had powers to rid people off their problems. As he continued with the divine mission to prevent the outbreak of nuclear war, he was soon joined by a group of like-minded youth. So a team was formed under the leadership of the Chola Prince. These young boys and girls were also connected with the divine spiritual energy and had similar out of world, mystic cosmic experiences in the past. Till date, this team is working selflessly under the leadership of Mr. Amithaab.

COSMIC EXPLANATIONS

The operations carried out by the Chola prince and his team is more connected to spirituality. They are driven by the cosmos and communication with higher dimensional being and divine souls. They are called by different names. In our religions, they are referred to as 'Devathas', 'Farishtas', 'Angels' and so on. In Science, they are called as 'Positive aliens', 'inter galactic species', 'extra terrestrials'. Since a common man always believes in anything that is perceivable by his 5 senses, it has been a very challenging task to convince people of their existence or the prince and his team's ability to communicate with them. Only a personal experience can answer this. But to have an experience, it requires faith. Faith is a strong energy of thought that helps you to tune in to the frequency of higher souls. People fail to have such experiences or it becomes not possible for providing people with the spiritual experiences because they usually sign up to it to either test our communications or to get their personal problems solved.

Usually people think that spirituality is all about meditation and yoga. But it is not so. Spirituality is a vast domain that involves realizing your true sense and purpose and a lot more. The Yogis in the Himalayas sit in the caves and work in the cosmic plane. If the meditation was all about mental peace, they would not have to dedicate their entire life sitting at one place. The Sanathan dharma speaks about different worlds consisting of devathas, nagas, yakshas, suras, dhanavas, rakshasas, kinnaras, kimpurushas, asuras and so on which cannot be found on earth. That means to say that they do not belong to this planet. And scientifically your brain is just a transmitter and receiver of information, and converter of energies perceivable into thoughts. It has pineal gland which helps to establish communication with energies not easily perceivable by the 5 senses. And the yogis and some of the spiritual leaders have their pineal gland active to communicate. This gland is made inactive due to pollution, vaccination, medicines and impaired secretion serotonin and melatonin in brain. The ancient scientists and mathematicians such as Aryabhatta could determine the orbital movements of planets and the reflection of Sun's rays by moon without any telescope because they knew of technology that were more advanced than those that exist today. And one of such is the astral communication using the pineal gland.

The aliens or extra terrestrial beings are not comic figures like they show in movies but gods and goddesses that are illustrated with super powers and weapons that are a common technology in their native planets.

Spiritual ceremonies such as fire rituals, installation of idols of deities in temples and other ceremonies pertaining to different religions has been carried out since ages. These are believed to be just religious practices that are carried out in temples and prayer halls that are believed to ward off the people's problems in a mystic way. But only true yogis and yoginis who have spiritual powers understand that the spiritual ceremonies are not mere religious practices but a technology once used by our ancestors to tap and utilize cosmic spiritual energies for different purposes. Now these technologies or ways to use them are lost and they are understood only as mythological scriptures and practiced as a mere ceremony passes down the generations.

APPENDIX

Installations and Consecrations across Karnataka in congregation with WE Trust, another spirituo-mystic organization dedicated to heal mother earth.

Reinstallation of Sri Veerabhadra Swami within the fourth precinct of Chitradurga fort

Installation of Pancha Pativrata Shiromanis at Vaddee kere village of Chitradurga district. This and the following yagna brought torrential rains to Chitradurga district which was drought ridden for 13 continuous years

Message to the reader:

Usage of nuclear weapons on any country will result in devastation of life. The flora and fauna will be genetically mutated and their progeny will suffer for centuries together. Humans dead due to nuclear explosion will be the luckiest. Those who survive will be exposed to high levels of radiations and will die a slow painful death due to cancer. The generations born at the site will be physically and mentally disabled and will be prone to cancer and other genetic diseases. Air and bio sphere reserves will be contaminated by radiation and animals depending on these water forms will be affected by nuclear effluents and will start to die. The large mass of land will become unfit for livelihood. The wind blowing passing by these region will carry the imprints of radiations to other places and contaminate those regions as well. Now if a war breaks out among nations and countries use nuclear weapons against each other, imagine the catastrophe we bring up on our selves.

Keeping this in mind, Mr. A Amithaab and all the members of Chola Mandala Maha Samsthaanam have been striving to prevent the outbreak of nuclear war since 2005. Since then, the prince and his team have been working day and night selflessly for the noble vision. The realization of this vision will result in the well being of our planet, mankind, eco system and all the inhabitants of Mother Earth.

Mr. Amithaab ji and his team have been working under the ordinance of a supreme divine. The application of spiritual cosmos has helped the Samsthaanam to prevent nuclear war until now. But to eradicate the issue completely, a temple of Mata Gandhareshwari, Mata Dwarakanateshwari and Shraap (Shaapa) Mukta Krishna has to be constructed at Hebbya, Mysore which forms a major epicenter of vast divine cosmic energy. This epicenter at Hebbya, Mysore falls at the personal property of Mr. A. Amithaab.

The prince has a proposal to the Government of India and Ministry that if the Government extends its full support to construct the Mata Gandhareshwari, Mata Dwarakanatheshwari and Shaapa Mukta Krishna temple at his property at Hebbya, he promises to provide an outstanding positive result towards preventing nuclear war and establishing peace and harmony across the globe and these results will be evident to the Government within 48 days of Idol consecrations. In return, if the Government finds the results satisfying, he expects the Government to further support his energy programs by providing permissions, allow unrestricted entry to various energy epicenters across India and in other countries to conduct yagna (fire rituals), Idol and Atma Lingh consecrations and construct temples. Sometimes military back up may also be necessary.

He also adds that if he fails to provide the results that he promised, he promises to donate the entire property at Hebbya, Mysuru and along with the constructed temples and its idols to Government in no expectation of what so ever in return. He would not wish to have any authority on the land and/or the temple.
